Training video scripts

Short screen recordings (2–4 minutes each) to record yourself, in the **practice company** so no real data shows. Record at 1280×720, the till full-screen; speak slowly; one task per video. Each script lists what to show and what to say.

1. Your first sale (cashiers, 3 min)

Show	Say
The sign-in screen	"Type your username, then your PIN. Never tell anyone your PIN."
Open shift, type 200	"Count the cash in the drawer. Type exactly what you counted."
Scan two items	"Scan each item. The line shows the name, the quantity and the price."
Type "milo", Enter	"No barcode? Type part of the name and press Enter."
Change Qty to 3	"To sell three, type 3 in Qty and press Enter."
F12, cash 100	"Press F12 to pay. Tap or type what the customer gave you. The change is on the screen."
Print receipt, New sale	"Give the receipt and the change together. New sale starts the next customer."

2. Mobile money and mixed payment (cashiers, 2 min)

Show choosing MTN MoMo, typing the transaction ID from the customer's phone, then paying the rest in cash. Say: "Only accept once you see the confirmation message on the customer's phone. Copy the transaction ID exactly."

3. When the network is down (cashiers, 2 min)

Unplug the network cable on camera. Show the status changing to *No network*, a sale still completing, the yellow bar counting waiting sales, then plug back in and the bar clearing. Say: "Keep selling. Never ring a sale up twice. It sends by itself."

4. Returns (cashiers and supervisors, 3 min)

Show a return with the receipt number, choosing one item and the reason; then a return without a receipt with the supervisor approval box. Say: "A return is never done by selling a negative item: always use Return."

5. Closing the shift (cashiers, 2 min)

Show Close shift, counting, typing the count, typing the MoMo and card totals from the merchant phone and terminal, the over/short shown afterwards, adding a note. Say: "Count everything in the drawer, including the float. You see the difference only after you type your count."

6. Receiving a delivery (storekeepers, 3 min)

Show a goods receipt against a purchase order with one item short and an expiry date. Say: "Type what arrived, not what the paper says."

7. The stock count (storekeepers, 4 min)

Show creating a count, printing the sheet, typing counts, submitting, and the manager approving. Say: "Count without looking at the system's figure."

8. Reading your business (owners and managers, 4 min)

Show the dashboard, Insights → Forecast and Alerts, and the report builder making "sales by product this month". Say: "Ten minutes every morning is enough."

9. Going live, step by step (owners and managers, 4 min)

Show System → Go-live: the plan, the checklist turning green, the figures check, entering a parallel-run day, taking the go-live backup. Say: "Do not go live with a red step you cannot explain."
